Dear Valued Customer,

This letter is in regards to the very important issues of peanut allergies and trans-fat free products.

We can assure you that none of our products contain peanuts nor are they produced with any peanut by-products, with the exception of our single serve pre-packaged Cadbury Desserts.

While precaution is taken at each of our locations to prevent contact with nuts, we cannot guarantee that our pizzas will not have come into contact with peanuts and/or other potential allergens once they leave our facility. As such, we CANNOT GUARANTEE that our products are safe to consume for any individual who suffers from a 'trace' allergy. We encourage anyone with food sensitivities, allergies or special dietary needs to contact customer care: DIAL #3636 from your cell phone and address all concerns directly with a supervisor before ordering and/or consuming a Pizzaville menu item. An allergen chart, with all Pizzaville menu items can be found at www.pizzaville.ca. We recommend that you make the final determination on consuming a Pizzaville pizza based on the severity of your allergy.

In regards to trans-fat in our product, we have been tested by Maxxam Analytics, and both our Party and Large Size cheese and pepperoni pizzas are, according to Ministry standards, trans-fat free. Please feel free to visit our website for more nutritional information at Pizzaville.ca.

Any further questions or concerns please contact our Pizzaville Customer Care desk at 416-736-3636 or DIAL #3636 toll-free, from your mobile phone. Please direct your questions to a Supervisor on duty. If you'd like to reach us by email, we can be reached at info@pizzaville.ca.

Sincerely,

The Pizzaville Team
